The Forest Hills Public School District was founded in 1956 when residents in 13 neighboring one-room schoolhouses consolidated into one district. Their goal was to build a high school for their children and provide a quality education to help children be successful. Today, the Forest Hills district has grown to serve over 10,000 students and includes 18 school buildings, a fine arts center, an aquatic building and senior center, and many more buildings to service the residents, families, students and staff. The Forest Hills district is one of the largest geographic districts in Michigan, as it encompasses approximately 68 square miles. There are three High schools within the Forest Hills District. Each school has its own set of Elementary and middle school feeders. The school your student attends depends on where you live within the district map.
